HARMONIC BALANCER BOLT INSTALLATION

PART NUMBER: 1042445

COMPONENTS	QTY
BOLTS	1

1. Make sure there is an adequate chamfer around the bolt holes on the flexplate to clear the radius under the head of the bolt.

2. Install washer (if supplied) and hand tighten the bolt.

3. Torque the bolts to 265 ft.lbs.

Warranty Information:

PRW Power Products guarantees that each new item (excluding those specifically noted in later sections) is free from defects in materials and workmanship for one (1) year from the original purchase date. This warranty applies only when the product has been correctly installed, used under normal operating conditions, and has not been altered, modified, or damaged due to customer or installer negligence, nor used in racing or competitive environments.

If a customer believes a product is defective, it should be returned to the original place of purchase or sent directly to PRW Power Products in accordance with our Return and Exchange Policy. All returns must include proof of purchase, a detailed description of the issue, and must be shipped prepaid. Contact PRW Power Directly for an RMA at https://www.prwpower.com/contact-us

Upon factory inspection, if the product is found to have defects in material or workmanship, PRW Power Products' sole responsibility will be to repair or replace the product. This warranty applies only to the product itself and does not cover any labor costs associated with installation or removal.
