

Installation Instructions for 80422 3/8" Reversible Drill Rivet Gun

Installation:

1. Install the rivet attachment onto your drill as shown.

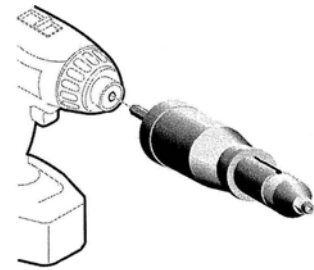

Figure 1

Operation:

1. While holding the rivet attachment, run the drill in reverse until the attachment clicks.
2. Install the rivet into the rivet attachment.
3. Insert the rivet into the desired panel, run the drill forward until the rivet pops.
4. Tilt the nose of the drill downward while running the drill in reverse to release the nail. Continue until the rivet attachment clicks, and repeat this operation for each rivet.
