

# MEASURING FOR A HELMET

MEASURE DIRECTLY ABOVE THE BROW LINE FOR THE BEST HELMET FIT.  
 Simpson Recommends Inspection Of Your Helmet After Any Impact Collision.

A correctly fitted helmet should feel like an even amount of pressure is being exerted around your head and cheeks. But helmets break in, so it should fit as tight as you can comfortably wear it. Once fastened, you should NOT be able to pull it off your head in any direction. Attention first-time helmet buyers: If your helmet is loose at all, and doesn't fit well, it CANNOT deliver the best protection. A helmet's strict safety standards can be compromised after only one impact collision. If the integrity is in question, send it back to us for proper inspection.

ADULT HELMET SIZE CHART							
INCHES							
CENTIMETERS							
HAT SIZE		$6\frac{5}{8} - 6\frac{3}{4}$	$6\frac{7}{8} - 7$	$7\frac{1}{8} - 7\frac{1}{4}$	$7\frac{3}{8} - 7\frac{1}{2}$	$7\frac{5}{8} - 7\frac{3}{4}$	$7\frac{7}{8} - 8$
