

Jeep Wrangler TJ/LJ Bedrug/BedTred Interior Installation Instructions

Congratulations on choosing the finest interior flooring kit available for your Jeep. The Bedrug/Bedtred material is mold and mildew resistant, easily cleaned with water & household cleaning chemicals and extremely resistant to most chemicals.

- **Kit Contents:** Driver side front floor, passenger side front floor, rear passenger floor, heat shield material, hook fasteners, and instruction sheet.
- **Tools needed:** Phillips screwdriver, utility knife, soap, water, and rubbing alcohol.

WARNING: The use of front floor mats is not recommended with BedRug or BedTred floor kits.

If floor mats are used, it is imperative to re-use the removable retention hooks from the factory carpet, installed to the manufacturers specifications. **Do not use floor mats or liners with BedTred Kits, do not use floor mats or liners with BedRug Kits without retention hooks.** **Please retain these instructions for future reference in your vehicles glove box**

DON'T REMOVE YOUR SEATS! Our kits and your factory carpet are precut to make removing your seats unnecessary.

PREPARATION

1. Read all instructions before beginning installation.
2. Remove old Jeep flooring material (if equipped).
3. Wash and dry the floor pan areas thoroughly.
4. Place the hook fasteners on each piece of loop sewn on the back side of the BedRug. For BedTred installation, place the hook fasteners to the loop surface on the underside of the BedTred. Use drawing on **Page 4** for proper location.
5. Pre-install provided heat shields on underside of the two front pieces in areas (**see Page 4**), using the locator marks. (**Fig. 1 & Fig. 2**) Note: Passenger side heat shield is the larger of the two pieces.

IMPORTANT: Jeep floor should be at least 68°F (20°C) for maximum adhesion. Clean all areas with rubbing alcohol before applying tape. When removing backing, do not touch adhesive. If both front and rear kits were purchased be sure to install the rear cargo area first.
