INTRODUCTION

The Power Pup downloader is designed to increase power and performance while also improving fuel economy brought to you by the leader in performance, Bully Dog Technologies. This set of instructions outlines how to install and operate the Power Pup downloader.

This instruction set and this Power Pup pn#: 41562 are made exclusively for the 6.0L and 6.4L Ford Power Stroke '01-'07.

BILL OF MATERIALS

1. Power Pup Downloader
2. OBD II Cable

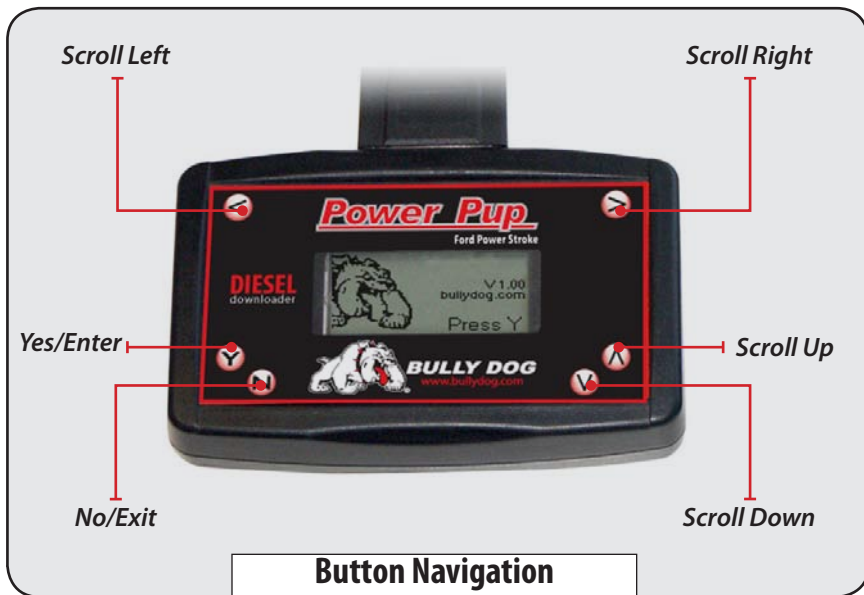

TOOLS NEEDED

No Tools necessary

OPERATING INSTRUCTIONS (INSTALLATION)

1. Make sure that your key is in the ignition in the off position before you plug the downloader into the vehicle. The downloader will later prompt you to turn the key to the run position.

2. Connect the cable that comes with the downloader into the top of the downloader and then into the OBDII port. The OBDII port is the diagnostic port located underneath the dash on the driver side of the vehicle (see OBDII Picture Below).
3. Once connected the downloader will light up to begin operations. To install a download in the vehicle simply follow the on-screen instructions. The sections following in these instructions cover the main points of operating the downloader: Main Menu, Download Options, Returning to Stock, etc.

Once a download begins it is crucial that it is not disturbed. Make sure that before downloading that the batteries are at full charge. While downloading do not unplug the downloader or remove the key until the downloader indicates that the downloader is complete and prompts you to unplug.

OPERATING INSTRUCTIONS (MAIN MENU)

THE MAIN MENU CONTAINS TWO OPTIONS: DOWNLOAD, AND DTCS

Downloader: From the main menu select the downloader option to initiate a download. Follow the on-screen instructions for guidance through the download process. As part of the download process you must select a power level and choose to opt in or opt out of download option. The download option is also used to return the vehicle to stock.

Power Levels: The power levels available are split into four different levels: Stock, Tow, Performance, and Extreme. The stock tune is available for those who do not want to add power but want to take advantage of the downloader options. Once you choose a power level, follow the instructions given by the downloader.

Note: Extreme tune not available for '07 6.4L.

Diagnostic Trouble Codes (DTCs): The Power Pup gives you the option of reading and erasing diagnostic trouble codes. If any trouble codes appear you can use the Power Pup to erase the codes from the engine computer. To determine trouble meanings visit our web site: http://www.bullydog.com/Tech_Support.php.

OPERATING INSTRUCTIONS (DOWNLOADER OPTIONS)

During the downloading process there are download options that you must choose to opt in or out of to continue the download process. These options do not affect the power programs. They are simply there for your convenience.

SPEED LIMITER

This allows the vehicle to reach speeds in excess of where the OEM speed limiter was set, usually at 98 mph. By selecting yes to increase the speed limiter you agree that your vehicle has tires rated for speeds in excess of 140 mph.

6.0L: on the '03-'07 6.0L Power Stroke you have the ability to remove the speed limiter.

6.4L: on the '07 6.4L you can adjust the speed limiter by using the up and down arrows to set the speed limiter to the desired mph in 1 mph increments from 40 mph to 140 mph.

RETURNING TO STOCK:

Plug in the downloader and select the download option from the main menu. Once in the power level selection menu, highlight stock and press "Y". Then follow the instructions set out on the downloader. When finished, the downloader will have returned the vehicle to stock power level with the speed limiter intact and the speedometer calibrated back to stock.
