

VICTOR SERIES ALUMINUM WATER PUMPS

For 1970-79 351-C and 351-M/400 Ford V8s

Catalog #8844 (unpolished), #8849 (polished)

GENERAL INSTRUCTIONS

PLEASE study these instructions carefully before installing your new water pump. If you have any questions or problems, do not hesitate to contact our **Technical Hotline at: (310) 782-2900**.

• DESCRIPTION

The Edelbrock aluminum water pump #8844 is a heavy duty water pump for both street and racing applications. The pump is a direct replacement for the original equipment pump (Ford #DOAZ-8501-E) to provide compatibility with all accessories and pulleys. It offers weight savings along with increased durability and cooling potential. #8844 is a standard rotation water pump for 351-C and 351-M/400 engines. Not for reverse rotation 1986-93 5.0 Litre V8s with serpentine drive belt. Polished Aluminum Water Pump #8849 fits the same applications as #8844.

• INSTALLATION

Installation is the same as for original equipment water pumps. Consult service manual for specific procedures, if necessary. **CAUTION:** Be sure that fan bolts don't protrude through the hub so far that they hit the water pump housing.

• SPECIAL NOTES:

Check closely for any interference with drive belts; some filing for clearance may be necessary with some applications.

• SPECIFICATIONS

Dimension from flange surface to hub:
#8844— 5.71"

-
- **PLEASE** complete and mail your warranty card. Be sure to write the model number of this product in the "Part # ____" space.
 - **THANK YOU.**
