

VICTOR SERIES ALUMINUM WATER PUMPS

For 1965-67 289 c.i.d. HP Ford V8s

Catalog #8842 (unpolished), #8847 (polished)

GENERAL INSTRUCTIONS

PLEASE study these instructions carefully before installing your new water pump. If you have any questions or problems, do not hesitate to contact our **Technical Hotline at: (310) 782-2900.**

- **DESCRIPTION**

The Edelbrock aluminum water pump #8842 is a heavy duty water pump for both street and racing applications. The pump is a direct replacement for the original equipment pump (Ford #C5AZ-8501-K) to provide compatibility with all accessories and pulleys. It offers weight savings along with increased durability and cooling potential. #8842 is a standard rotation water pump for 289 high performance engines. Not for standard production 289 V8s or reverse rotation 1986-93 5.0 Litre V8s with serpentine drive belt. Polished Aluminum Water Pump #8847 fits the same applications as #8842.

- **INSTALLATION**

Installation is the same as for original equipment water pumps. Consult service manual for specific procedures, if necessary.

CAUTION: Be sure that fan bolts don't protrude through the hub so far that they hit the water pump housing.

NOTE: Check clearance between water pump body and crankshaft dampner. Clearance pump body or change dampner if necessary.

- **SPECIAL NOTES:**

Check closely for any interference with drive belts; some filing for clearance may be necessary with some applications.

- **SPECIFICATIONS**

Dimension from flange surface to hub:
#8842— 5.1"

- **PLEASE** complete and mail your warranty card. Be sure to write the model number of this product in the "Part # ____" space.
- **THANK YOU.**
