

VICTOR SERIES ALUMINUM WATER PUMPS

For 1970-78 302 c.i.d. and 1970-87 351-W Ford V8s

Catalog #8833 & #8843 (unpolished), #8848 (polished)

GENERAL INSTRUCTIONS

PLEASE study these instructions carefully before installing your new water pump. If you have any questions or problems, do not hesitate to contact our **Technical Hotline at: 1-800-416-8628.**

• DESCRIPTION

The Edelbrock aluminum water pump #8833 and #8843 are heavy duty water pumps for both street and racing applications. The pumps are direct replacements for the original equipment pump (Ford #D00Z-8501-B) to provide compatibility with all accessories and pulleys. They offer weight savings along with increased durability and cooling potential. #8833 and #8843 are standard rotation water pumps for 302 and 351-W engines. Not for reverse rotation 1986-93 5.0 Litre V8s with serpentine drive belt. Polished Aluminum Water Pump #8848 fits the same applications as #8843.

• INSTALLATION

Installation is the same as for original equipment water pumps. Consult service manual for specific procedures, if necessary. **CAUTION:** Be sure that fan bolts don't protrude through the hub so far that they hit the water pump housing.

• SPECIAL NOTES:

Check closely for any interference with drive belts; some filing for clearance may be necessary with some applications.

• SPECIFICATIONS

Dimension from flange surface to hub:

#8833— 5.70"

#8843— 5.70"

#8848— 5.70"

-
- **PLEASE** complete and mail your warranty card. Be sure to write the model number of this product in the "Part # ____" space.
 - **THANK YOU.**
