	Instructions	4.0782INST	1

### NOTES: Read All Instructions Before Beginning Installation

- Installation of a **SPORTLINE** Spring set should only be performed by a qualified mechanic experienced in the installation and removal of suspension springs.
- Use of a hoist is highly recommended and will substantially reduce installation time.
- **Never work on or under a vehicle unless it is properly supported by safety stands and wheels are blocked.**
- **SPORTLINE** Springs are marked with the letter F and R (located at the end of the part number) designating front and rear springs.
- **SPORTLINE** Springs should be installed with the **Eibach** Logo right side up. All original stock spring isolators, dampers and tubing should be retained from the stock springs and used when installing the **SPORTLINE** Springs.
- **After** installation, it is always important to inspect and adjust the following if necessary:
  - Wheel alignment such as camber, caster & toe
  - Tire and/or wheel fender clearance
  - Brake line clearance and attachments
  - Brake anti-locking and anti-skid system sensors
- **Tire Rotation:** In order to increase the life of your tires, it is recommended to rotate your tires every 3,000 miles.

### ALIGNMENT:

After installation, it will be necessary to perform a full vehicle alignment. **Eibach** offers the following alignment kit for this vehicle:

Part #: 5.83470K

Front/ Rear: Front/ Rear

Camber Adjustment: +/-1.0 °

### Bump Stop Trimming Instructions

Typical Bump-Stop  
(Bump-Stop from your vehicle may have different shape)
