

# DF25004F

# RAM

Front suspension package  
Ensemble pour suspension avant  
Ensemble para suspensión de delantero

## INSTALLATION INSTRUCTIONS

- Raise vehicle allowing the axle to hang freely.
- Remove existing bump stop by prying out of bump stop cup.
- Position Timbren spring assembly into bump stop cup as shown in Diagram A. Ensure correct orientation of assembly. Timbren assembly should be away to the brake line. Use soapy water if required. (To ensure that the Aeon assembly is properly seated in the cup, it will help to place a temporary spacer such as a short piece of 2x4 wood between the axle and the Aeon assembly.)
- Lower vehicle.

**NOTE:**  
Ensure Timbren assembly is properly seated in bump stop cup.

Overall Height: 5.25"

Do not exceed vehicle manufacturer's recommended axle weight rating. Check for AEON® interference with vehicle components - Under load AEON® will "expand" in diameter.

## INSTRUCTIONS DE MONTAGE

- Soulever le véhicule de sorte que l'essieu soit dégagé.
- Retirer la butée de suspension existante en insérant un levier dans l'échancrure de la butée de suspension.
- Placer le bloc de ressorts Timbren dans l'échancrure de la butée de suspension comme il est indiqué dans le schéma A. Utiliser de l'eau savonneuse si nécessaire. (Pour s'assurer que l'assemblage Aeon est placé correctement dans l'échancrure, il sera préférable d'installer une entretoise temporaire, comme une petite planche de bois (2x4), entre l'essieu et l'assemblage Aeon avant de baisser le véhicule. Soulever le véhicule une fois de plus pour retirer l'entretoise temporaire.)
- Redescendre le véhicule.

**NOTE:**  
S'assurer que l'assemblage Timbren soit convenablement placé dans l'échancrure de la butée de suspension.

Hauteur totale: 5.25"

Ne pas dépasser le poids nominal sur l'essieu recommandé par le fabricant du véhicule. Vérifier que le ressort AEON® n'a pas d'incidence sur d'autres pièces du véhicule - Le ressort AEON® augmentera son diamètre avec la charge.

## INSTRUCCIONES DE INSTALACIÓN

- Levante el vehículo dejando que los ejes cuelguen libremente.
- Retire el tope de suspensión existente haciendo palanca en la copa del tope de retención
- Coloque en posición la unidad de resorte Timbren en la copa del tope de retención como se muestra en el Diagrama A. Utilizar agua con jabón en caso necesario. (Para asegurarse de que la unidad Aeon está bien encajada en la copa, es recomendable colocar un separador provisional como un pedazo corto de madera de 2x4 entre el eje y la unidad Aeon antes de bajar el vehículo. Levante el vehículo una vez más para retirar el separador provisional).
- Baje el vehículo.

**NOTE:**  
Asegúrese de que la unidad Timbren está correctamente encajado en la copa del tope de retención.

Altura total: 5.25"

No exceda la carga nominal en el eje recomendada por el fabricante del vehículo. Compruebe que no haya interferencia entre el resorte AEON® y los otros componentes del vehículo. Bajo carga, el resorte AEON® se ampliará en diámetro.

### KIT PRE-ASSEMBLED

**TIMBREN**

## **Clearance Instructions**

Front SES kits are usually in full contact.

Rear SES kits for Light Duty Trucks and Cube Vans should have 1/2" to 1-1/2" gap between rubber spring and contact point when empty.

Partial load, or vehicle accessories will reduce or eliminate gap.

Medium and Heavy-Duty Trucks, Trailers and Motorhomes will be in constant contact, and have no gap.

## **Lifetime Warranty**

Timbren SES - Suspension Enhancement Systems kits are warranted against defects in material and workmanship, under normal use and service, for the life of the vehicle on which the kit was originally installed. The warranty is non-transferable and proof of the date of purchase and purchaser is required.

This warranty is limited to the replacement of the failed parts and does not include labor, freight, collateral damage or ancillary costs which may arise as a result of the failed part. For vehicles subjected to exceptionally high use and service, the warranty is limited to the lesser of 5 years (from date of purchase) or 400,000 km (approx. 250,000 miles).

Timbren retains the right to make its own inspection of the failed part to determine the validity of the claim. Timbren shall not be liable nor warrant the product in the event of alteration, misuse, overload, negligence nor damage caused by others

## **100 Day Money Back Guarantee**
