

NEW PRODUCT RELEASE 2006-15

NOS Quick Release Stainless Steel Bottle Brackets

PRODUCT DESCRIPTION

Looking for a nice looking bottle bracket that will not break the bank? Well, look no further! Nitrous Oxide Systems is proud to introduce the new Stainless Steel quick release bottle brackets. The NOS stainless steel bottle brackets feature brushed S.S. construction that have been deburred and cleaned on the edges so it will not scratch the bottle finish. The legs are independently adjustable for ease of installation in uneven trunk floors. The CNC machined billet aluminum release knob does not require any tools so bottle changes can be performed in a snap. The brackets also include the NOS logo on top of each one so you can proudly show off that you run the best nitrous products available

AVAILABLE: ON THE SHELF
