

WEIAND LS1 INTAKE EGR COVER PLATE P/N 9001 & 9001P INSTALLATION INSTRUCTIONS

STAINLESS STEEL
BUTTON HEAD
CAP SCREW

1 3/8"
CUP PLUG

COVER
PLATE

NOTE: This part is only used for Weiland LS1 intakes (P/N 300-111 & 30-111P). IT IS NOT FOR STOCK MANIFOLDS.

INSTALLATION:

1. Using a socket that is slightly smaller in diameter than the 1 3/8" cup plug, drive the cup plug into the EGR hole on the manifold, so that it is slightly below the surface. See Figures 1, 2, & 3.
2. Mount the EGR cover plate using the button head cap screw. (NOTE: We advise using blue Loctite on the screw.)
