

Detroit Speed, Inc.
Torrington Bearing Set
P/N: 031062

The Detroit Speed, Inc. Torrington Bearing Set is designed for 2-1/2" inner diameter coilover springs. This kit will provide components to assemble on one pair of coilover shocks.

Item #	Description	Quantity
1	Thrust Bearing	2
2	Thrust Washer	4

Assemble the coilover shock for installation in the vehicle. The coilover adjuster nut must be threaded all of the way to the bottom of the threads. Install a thrust washer followed by the roller bearing and then another thrust washer. Then install the coilover spring and thread the adjuster nut up to the spring. This bearing kit will help in compressing the spring with the adjuster nut to set your vehicle ride height.

If you have any questions before or during the installation of this product please contact Detroit Speed Inc. at tech@detroitsspeed.com or 704.662.3272
