	Rear Spring	35101.002	2
	Front Dust Boot	770041	2
	Information Kit	EPAK	1
	Instructions	35101.140INST	1

NOTES: Read All Instructions Before Beginning Installation

- **Installation of a *PRO-KIT* Spring set should only be performed by a qualified mechanic experienced in the installation and removal of suspension springs.**
- **Use** of a hoist is highly recommended and will substantially reduce installation time.
- **Never work on or under a vehicle unless it is properly supported by safety stands and wheels are blocked.**
- *PRO-KIT* Springs are marked with 01 and 02 (located at the end of the part number) designating front and rear spring respectively.
- *PRO-KIT* Springs should be installed with the *Eibach* Logo right side up. All original stock spring isolators, dampers and tubing should be retained from the stock springs and reused
- **After** installation, it is always important to inspect and adjust the following if necessary:
     - Wheel alignment such as camber, caster & toe.
     - Tire and/or wheel fender clearance.
     - Brake line clearance and attachments.
     - Brake anti-locking and anti-skid system sensors.
- **Tire Rotation:** To increase the life of your tires, it is recommended to rotate your tires every 3,000 miles.

Alignment:
After installation, it will be necessary to perform a full vehicle alignment using factory specifications. Eibach offers the following alignment kits for this vehicle.

|		
Part #: 5.81260K	**Front Only**	**Camber Adjustment:** +/-1.75

Bumpstop Instructions:

1. Remove and discard the OE front bumpstop dust boot and metal cup assembly when installing front springs. (See Photo 1)

2. Snap new *Eibach* boots onto OE bumpstops and reinstall. (See Photo 2)
