

## ***Installation Instructions for 159105 & 159106 Head Mount Regulator Bracket***

**Installation Instruction:** (Read all instructions before beginning installation)

1. Determine the mounting holes in the cylinder head for your particular application.
2. Make sure that the threads in the cylinder head are clean and free of dirt or debris. Attach the bracket to the cylinder head using the two supplied spacers behind the bracket. **NOTE:** For added clearance behind the regulator use the supplied 3/8"-16 button head fastener.
3. Using the regulator bracket that was supplied by the regulator manufacturer (not included) attach it to the bracket using the two supplied 1/4"-20 fasteners.
