

Cylinder Head Dowel Tubes

Professional Grade Big Block-Chevrolet Cylinder Head Dowel Tubes

Features

- These solid tubular dowels feature an undercut lead-in on one end.
- Factory and Tavia dowels are rolled sheet stock similar to a roll pin.
- Developed with our Race Team and used on our Pro Stock engines.
- Can be used on every Big Block Chevy from stock to Top Alcohol Dragster.

Installation Instructions

- These solid tubular dowels feature an undercut lead-in on one end, insert the undercut lead-in squarely into the block and tap in using a soft blow hammer.
