

# ***Installation Instructions for 60358 Universal Transmission Catch Can***

## **Installation Instructions:**

1. Determine the mounting location of the catch can to the transmission pan & rail. Fasteners not included.
2. Attach mounting bracket to catch can as shown using one 1/4" washer, 1/4"-28 x 1-1/4" HHCS and 1/4"-28 locknut.
3. Attach the security bolt to the catch can under the mounting bracket as shown below using one 1/4" washer, 1/4"-20 x 3/4" BHCS and 1/4"-20 nut.
4. Attach the drain petcock, breather vent and one 90 degree male elbow in the configuration shown below. Make sure that the breather vent and the male elbow is at the top of the catch can.
5. Use the included poly tube and second male 90 elbow to attach the catch can to the vent on the transmission.
