

Drop-In Pressure Release Valve

555-60958

1993-2015 4L60E, 4L65E, & 4L70E

Introduction

We would like to take this opportunity to thank you for purchasing this JEGS 4L60E, 4L65E, & 4L70E Drop-in Pressure Regulator Valve. We welcome any comments or feedback you might have. If you have any questions about this product or about the installation procedure, please feel free to contact us at 1.800.345.4545.

Features

- Machined for full-time line to lube
 - The regulator valve land is purposely made undersized to ensure additional lubrication.
 - The new valve has longer lands on the out-board end. This adds support for a worn pump casting.
- Eliminates the need to replace pumps with worn bores
- Installed without the need for special tools

This kit is designed to address

- Burnt 3rd - 4th clutch
- Low line pressure
- Planetary burn-up
- Overheating or burnt fluid
- TCC slip

NOTE

TRANSMISSION REMOVAL IS REQUIRED FOR 2006 AND NEWER VERSIONS EQUIPPED WITH AN INPUT SPEED SENSOR (ISS).

Installation

1. Always use a new spring seat along with a new orange bumper spring when installing this new PR valve.
2. Reuse Main Regulator Spring.
