Part # T114W - Spanner Wrenches Set for QA1 Shocks & Struts

USE OF THIS PRODUCT IS ACCEPTANCE OF SELLER'S DISCLAIMER OF WARRANTY!

By their very nature, competition components are constantly pushed to their limits. While our components are designed to withstand intense race conditions, it is impossible to control the quality of installation or the varying conditions in which they are used. It is for this reason that absolutely no warranty or guarantee is either written or implied. Neither the seller nor the manufacturer will be liable for any loss, damage, or injury – direct or indirect – arising from the use of or inability to determine the use of any product. Before using, the user should determine the suitability of the product for its intended use, and the user shall assume all responsibility in connection therewith. Spohn Performance, Inc. makes no guarantee as to the legality for any specific class. Spohn Performance, Inc. makes no claims, nor does it intend its products to be used in street driven vehicles. Spohn Performance, Inc. reserves the right to make changes in design or add to or improve on their product without incurring any obligation to install the same on product previously manufactured. The Buyer agrees to indemnify and hold Spohn Performance, Inc. harmless from any claim, action or demand arising out of or incident to the Buyer's installation or use of products purchased from Spohn Performance, Inc.

INSTRUCTIONS

This kit includes a set of two spanner wrenches that are used to adjust the spring seat and jam ring on QA1 coil over shocks and struts.

You will note that there are two different style wrenches. The spring seat and the jam ring have a different wrench pattern. Be sure to properly match the correct wrench to each one as shown in the image below.

Note that the wrenches must be slid into place from above or below the spring seat and jam ring. They will not fit if you try to go straight in from the side horizontally.
