

INSTALLATION INSTRUCTIONS

- Do not use power tools to install this product.
- No battery operated screw guns.
- The use of power tools during installation may void the product warranty.
- Do not overtighten.

INSTALLATION INSTRUCTIONS

1. Clean and open the hood. Trial fit the Hood Product centrally onto the hood. Note the five (5) holes in the Hood Product tags corresponding to the holes in the hood. Remove Hood Product.
2. Install the screw plugs provided into the five (5) previously noted holes in hood. Ensure that the screw plug boss heads are parallel to the hood edge.
3. Refit Hood Product. Ensure that the boss heads of the screw plugs do not rotate, by locating them correctly into the slots of the Hood Product tags, as shown. Secure Hood Product to hood using screws and washers provided.

To Clean: Use mild detergent and water solution. (Do **NOT** use solvents). Avoid the use of automatic "Brush Style" car washes. When closing the hood, do **NOT** pull on Hood Product
