	Rear Spring	4.10085R	2
	Front bumpstop	BS45008620	2
	Information Kit	EPAK	1
	Instructions	4.10085INST	1

NOTES: Read All Instructions Before Beginning Installation

- Only qualified mechanics experienced in the installation and removal of suspension components should perform this installation.
- Use of a hoist is highly recommended and will substantially reduce installation time.
- Never work on or under a vehicle unless it is properly supported by safety stands.
- **SPORTLINE** springs are marked with a F, for Front and a R, for the Rear.
- **SPORTLINE** springs should be installed with the **Eibach** Logo right side up. All original stock spring isolators, dampers and tubing should be retained from the stock springs and used when installing the springs.
- After installation, it is always important to inspect and adjust the following if necessary:
 - Wheel alignment such as camber, caster & toe
 - Tire and/or wheel fender clearance, when aftermarket tires and wheels are used.
 - Brake line clearance and attachments
 - Brake anti-locking and anti-skid system sensors
- For MacPherson Strut type front suspension, it is important to mark the orientation of the upper spring perch with respect to the lower perch before disassembly. This orientation must remain the same with the installation of the **SPORTLINE** Springs. Noise may result if the procedure is not performed correctly.

Additional Eibach Components Available For Your Car

Eibach Kits	Part Number	Description	Front	Rear
Pro-Kit	85100.140	Performance Tuned Lowering	1"	1"
