

INSTALLATION INSTRUCTIONS

Congratulations – your new Work-Rite load assists are quality products capable of improving the handling and comfort of your vehicle while under load. As with all products, proper installation is the key to obtaining all of the benefits your kit is capable of delivering. Please take a few minutes to read through the instructions to identify the components and learn where and how they are used. It is a good idea to start by comparing the parts in your kit with the parts list below.

**NOTE: IF ANY PARTS ARE MISSING FROM THE KIT,
PLEASE CALL 1-800-888-0650.
PLEASE DO NOT CALL OR RETURN THE KIT TO THE DEALER.**

Be sure to take all applicable safety precautions during the installation of the kit. The instructions listed in this brochure and the illustrations all show the left, or driver's side of the vehicle. To install the right side assembly simply follow the same procedures.

STEP 1 – PREPARE THE VEHICLE

With the vehicle on a solid, level surface chock the front wheels. Remove the negative battery cable. Remove the jounce bumpers located under the frame rail. The jounce bumpers, bolts, and nuts will not be re-used with this kit.

STEP 2 – PRE-ASSEMBLE THE KIT

Insert the frame brace into the frame, being careful not to pinch any of the existing lines inside the frame rail. Slide the upper bracket onto the frame rail and frame brace making sure that all the holes line up. **See Figures "A" & "B"**. Use the holes in the bracket as a template, mark and drill the holes in the frame rail. **Before drilling the holes make sure all electrical, brake and fuel lines are cleared from the path of the drill. It is recommended to place a thin piece of wood between the frame rail and the existing lines.** After drilling the holes, attach the upper bracket with the 3/8"-16 x 4" hex bolts.

NOTE: An optional spacer may be installed to engage the Work-Rite sooner when a load is applied. To install, place between the Work-Rite and the upper bracket. If 1 spacer is installed, use the 3/8"-16 x 1-1/2" bolts, or the 2" bolts for 2 spacers. There should be 1/4" to 3/8" between the Work-Rite and the axle. See Figure "B".

STEP 3 – INSTALLING THE ASSEMBLY ON THE VEHICLE

Attach the Work-Rite to the upper bracket using 3/8"-16 x 1" hex bolts, large flat washers, and flange lock nuts inserted through the bottom of the Work-Rite and into the hole in the upper bracket. **See Figure "A"**.

STEP 4 – FINISH UP

Remove the wheel chocks and reconnect the battery cable. Now you're finished and ready to put your Work-Rite to use!

PARTS LIST

WORK-RITE	1259	2	3/8"-16 X 1-1/2" HEX BOLT	2
UPPER BRACKET	5647	2	3/8"-16 X 2" HEX BOLT	2
LEFT FRAME BRACE	5249	1	3/8"-16 X 4" HEX BOLT	4
RIGHT FRAME BRACE	5248	1	3/8"-16 FLANGE LOCK NUT	6
OPTIONAL SPACERS	0013	4	3/8" LARGE FLAT WASHERS	2
3/8"-16 X 1" HEX BOLT		2

Do Not Return This Product to the Dealer or Distributor

If you are

- missing parts,
- experiencing installation problems, or
- have technical concerns regarding this product,

you may contact a Firestone Technical Service Representative at rrtech@fsip.com or at 800-888-0650 (option 1, and then option 2). Representatives are available from 7:30 a.m. – 4:30 p.m. Eastern on Monday – Friday, excluding holidays. If you are located outside of the United States, you should first contact your distributor or dealer directly with any issues.

When contacting Technical Service, please have the kit or part # ready, along with the make, model, and year of the vehicle. You may also need to provide details, such as 2WD/4WD or if the vehicle has been lifted or lowered from stock height.

If you have a warranty concern, please include in your email a detailed description of the situation, a photo(s) of the issue, and your contact information, including ship-to address.

International customers should contact their distributors or dealers directly with any problems.

(*) Please refer to the “Firestone Limited Lifetime Air Spring Warranty” for details, terms, and conditions.

FIRESTONE LIMITED LIFETIME AIR SPRING WARRANTY

Firestone Industrial Products Company LLC ("Firestone") warrants that its Ride Rite Air Spring Assembly will perform according to the manufacturer's specifications for as long as the vehicle on which the system was originally installed is owned by the original retail purchaser. This limited warranty does not include installation or other service charges for replacement.

Warranty Period

The Air Spring is warranted for as long as the original purchaser owns the vehicle on which it was originally installed. The fasteners and upper and lower brackets which accompany the air spring are warranted for a period of twenty-four (24) months or 24,000 miles whichever occurs first. This warranty begins on the original retail delivery date.

What is Covered

Any implied warranties are limited in duration to the coverage period of this warranty (some states do not allow limitation on how long an implied warranty lasts so the above limitation may not apply to you). This Warranty runs in favor of the original retail purchaser when the Ride Rite Air Spring Assembly is used under normal operating conditions according to Firestone's specifications and installed on the appropriate application. This warranty does not apply to Ride Rite Air Spring Assemblies that have been improperly applied, improperly installed, used in racing or off road applications or used for commercial purposes. In addition, the warranty will not apply to products which have not been maintained and serviced according to the instructions that accompany the air spring assembly. The consumer will be responsible for any costs incurred in removing the product from the vehicle and the cost to return the air spring assembly to the dealer or installer from which it was purchased. If it is determined that the Ride Rite Air Spring Assembly failed as a result of a manufacturing defect, Firestone will repair or replace, at its option, any product or components subject to this warranty. You should retain a copy of your contract with your installer and your receipt as proof of the date of installation. This warranty is non-transferable and is not assignable in any way.

Firestone specifically excludes any obligation for consequential damages or incidental expenses including claims for loss of use of the product, loss of time, inconvenience, or commercial loss. This warranty gives you specific legal rights. You may also have other rights that may vary from state-to-state. Some states do not allow limitations on how long an implied warranty lasts or allow the exclusion or limitation of incidental or consequential damages. The above limitation or exclusion may not apply to you. There are no warranties, express or implied, including implied warranty of merchantability and fitness which extend beyond this warranty.
