Sport Series Bumper Grille

TOOLS REQUIRED:

8mm Socket and Ratchet

PARTS LIST

(4) 3" Threaded J Hooks

(4) 1/2" L Bracket

(4) 6/32 Nylon Lock Nuts

PLEASE READ AND UNDERSTAND ALL INSTRUCTIONS BEFORE INSTALLATION. Auto makers offer varied models to each vehicle and occasionally manufacture more than one body style of the same model. To assure your part is correct; our tech department can be contacted at tech@trexbillet.com to verify fitment or assist with tech questions. All other inquiries can be directed to info@trexbillet.com. In the event you do not have internet access please call 1-800-287-5900.

Step 1 Install Sport Series Bumper Grille into Factory Bumper

Take the Sport Series Mesh Bumper grille and press it into the opening of the factory bumper until it seats in the factory bumper opening. Looking through the mesh grille, locate the vertical plastic bars in the factory bumper opening. Insert the 4 J hooks through the mesh next to the vertical bars making sure the hook portion latches to the mesh. From behind the bumper install a L bracket over the threaded J hooks with the L bracket latching over the vertical plastic bars in the factory bumper. (Fig 1) Install a 6/32" nylon lock nut on the threaded J hooks and tighten. Installation complete.
