8mm Socket or Nut Driver

Part List:

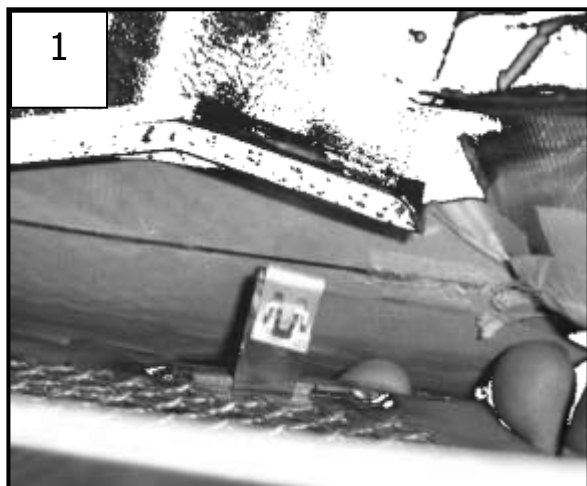

- 1 Mesh Grille
- 4 Lower Steel Clips
- 1 Top Plate
- 2 Plastic Clips
- 5 6/32 Nylon Lock Nuts

Read and understand instructions before attempting installation

Step 1.

Remove the eleven factory pop out clips from the factory plastic radiator top plate removing the two center ones first. Then remove the remaining clips. Remove the four remaining pop out clips on top of grille. On the lower side of grille; release the lower clips and remove the grille from the bumper cover.

If you purchased the lower grille install now

Step 2.

Locate your new grille insert; place clips onto lower mounts of grille **(1)**. Slide the lower mounts and clips into the factory lower slots. Apply pressure to grille to snap into place. Align top mounting plate holes to factory mounting location. Using 2 of the factory pop out clips; place these through the top plate into the outer2 factory holes and the 2 supplied clips in the center holes**(2)**. Secure the clips and enjoy your new grille. ***Thank you for purchasing a T-Rex Billet Grille. 8/21/07***
