G-35 COUPE

2003-2007 INFINITI G-35
UPPER CLASS SERIES MESH GRILLE

Tools Required:

Small Slotted Screwdriver
5/16 Wrench
Pliers

Part List:

- 1 Upper Class Series Grille
- 1 Top Mounting Plate
- 6 6-32 Nylon Lock Nuts
- 6 #6 Flat Washers
- 2 Mounting Brackets w/ Clips

Read and understand instructions before attempting installation

Step 1.

Remove the factory grille shell; use a small screwdriver to pull the center from each fastener. Two of the fasteners will be re-used; do not discard the fasteners. Next, lightly pull the top of the grille assembly forward. There is one clip in each corner of the factory grille. Depress each clip by hand or with a screwdriver. Use your fingers to depress the molded clips along the bottom of the grille. The grille can now be removed.

Step 2.

Attach the mounting brackets with the clips to the grille. Attach them to the studs along the bottom; secure them using the nylon lock nuts and washers. Attach the top mounting plate to the grille. The holes in plate align to the factory mounting holes.

Step 3.

Center the grille into the opening. The lower mounting brackets align into the factory holes. Snap the brackets in place. Use the factory fasteners to attach the upper mounting plate. It may be necessary to slightly bend the brackets and (or) mounting plate tabs so the grille aligns correctly.

Slowly close the hood to check the alignment of the billet insert. If necessary, remove the insert and adjust the brackets. ***Thank you for purchasing a T-Rex Billet Grille. 6/30/06***
