UPPER CLASS SERIES MESH GRILLE

Tools Required:

Phillip / Slotted Screwdrivers
10mm Socket

Hardware / Parts List:

1 Mesh Grille
4 Plastic Retainers

Read and understand instructions before attempting installation

Step 1

Remove six plastic fasteners along the top of the grille; use a small screwdriver to pull the center from each fastener (1). Remove five 10mm bolts securing the radiator cover.

Remove two 10mm bolts securing the coolant overflow tank; slide it back for clearance (2). Next, push the radiator cover back; depress the clips securing a wiring harness to the cover, remove (2).

Remove five 10mm nuts behind the grille. Depress the molded clips retaining the grille and remove from the front.

If installing a bumper grille, install the bumper billet and then go to **Step 2** below.

Step 2

Center the billet insert into the opening. The mounting tabs align with the factory mounting holes.

Slide the mounting brackets into the mounting holes. Use the plastic retainers to retain the mounting tabs from behind the bumper; press the retainers into the mounting tab holes (3).

Step 3

Re-install the wiring harness and radiator cover. Secure the coolant overflow tank. ***Thank you for purchasing your T-Rex billet grille. 2/21/07***
