UPDATED ELECTRICAL CONNECTOR

FORD HANGER ASSEMBLIES AND SENDING UNITS

Ford Motor Company updated the connector on the Hanger Assemblies or Sending Units for the 1992 through 1995 F-Series model trucks. The old model connector (Oval-type) mounted on the assembly has been replaced by the new generation wiring harness and round connector (see pictures below).

The new generation (Round) wiring harness connector is included with the fuel tanks on the list to the right.
