Usage

To remove funnel with one hand, push down and pull.

Install funnel part way to drain or transfer fluids.

- This storage system lets you keep your funnel where you can find it.
- Helps to keep the funnel free from dust and debris.
- Keeps the funnel from dripping on the ground.
- Can be easily mounted to most vertical surfaces.
- Easily transfer fluids from bottle to bottle.
- Funnel and transparent bottle included.
- Most used quart and 2-liter bottles will attach to the bottom screw-on mount.
- The removable bottle collects fluids from partially filled bottles.
