

23 Piece Auto Sheet Metal Pit Repair Set

Instructions

Contents:

- 1-piece clamp type sag repair puller (a)
- 1-piece T type sag repair puller (b)
- 1-piece 50ml alcohol spray bottle (empty) (c)
- 1-piece 20W hot melt glue gun (d)
- 10-piece Puller mat (e)
- 1-piece Nylon Shovel (f)
- 8-piece hot melt glue stick (g)

How to use:

1. Clean car sags and puller mats with alcohol (95%)
2. Evenly apply to the mat with hot glue and stick it in the pit
3. Use the puller to jam the mat out and level the pit as required
4. Remove hot melt glue (spray alcohol if necessary) from the car body with nylon shovel
