

49900 – Driver Side Front Seat Adapter '97-2002 Wrangler

READ AND UNDERSTAND INSTRUCTIONS BEFORE STARTING

Included Parts:

1-Frame
4-Bolts

INSTALLATION INSTRUCTIONS:

Step 1)

Orient your new frame as shown in Figure A. Attach your new seat to the frame using the 4 bolts supplied.

Step 2)

Remove the 4 bolts attaching your old seat brackets to the vehicle's floor. Save the bolts for later usage. Remove the old seat from the vehicle.

Step 3)

Locate the 4 bolts that mount the old seat brackets to your old seat. Remove these bolts and save them for later.

Step 4)

Using the 4 bolts you just removed, mount the old seat brackets to your new seat frame. See Figure B. Make sure you keep the original seat bracket orientation.

Step 5)

Mount your new seat into your vehicle using the original 4 bolts.

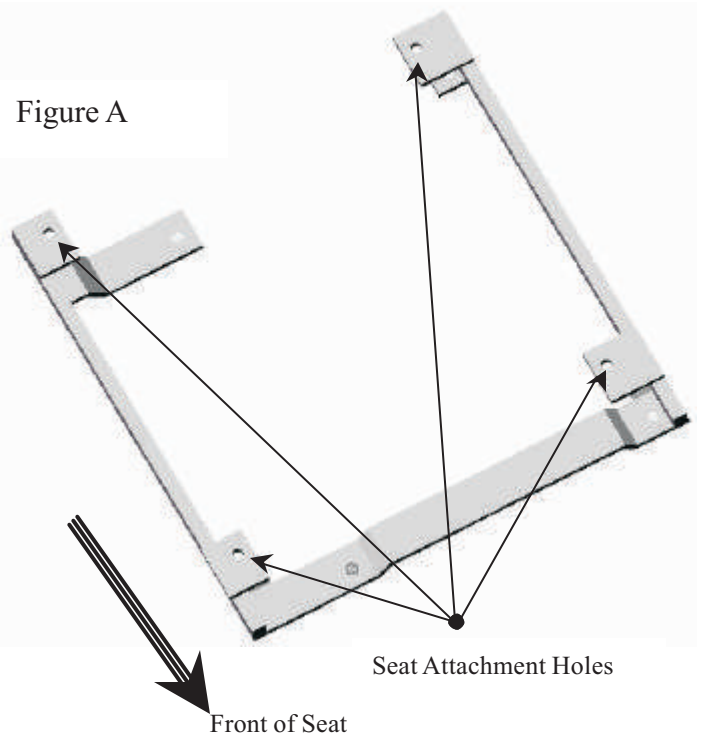

Figure B
