

FLYWHEEL BOLTS

PART# 38755

NOTE: Moroso will not be responsible for failures resulting from using a washer with this kit.

Make sure that the flywheel bolt holes are chamfered adequately to clear the radius under the head of the bolt. Lubricate the bolt under the head and on the threads, With a good lubricant (30 wt. Motor oil is sufficient) and torque the bolts 80-85 ft. lbs. in an alternating pattern.
