

INSTALLATION INSTRUCTIONS

MOROSO PART NO. 74250 QUICK DISCONNECT STARTER HARNESS

Designed to fit most GM Starter Motors.

1. Disconnect the positive battery cable from the battery.
2. Disconnect the starter wires from the solenoid, carefully noting the color of each wire and to which terminal it was connected.
3. Pull the starter wires out of the way and clip the Moroso Harness over the solenoid. Attach the three (3) harness wires to the solenoid.
4. Finally, splice the wires from the harness to the original starter wires. Be certain the wires eventually go to the same terminal they came from in Step No. 2.
5. Reconnect the battery cable.
