INSTALLATION INSTRUCTIONS – #59300

- 1 Remove the three screws located under the front fascia that hold on the front air dam.
- 2 Install the SLP plate with 1" tabs on the vehicle using the three screws removed in step one. NOTE: This plate can only be installed one way, with the hole closest to the edge of the plate installed on the drivers' side. See Photo 1 below.

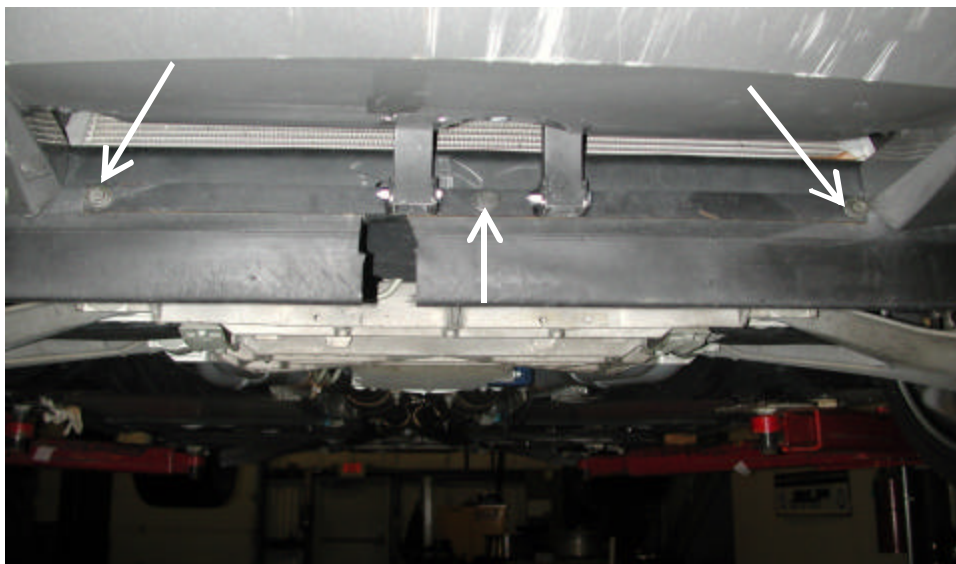

PHOTO 1

- 3 Next install the License Plate Mount.
- 4 Slip the two open ended legs through the two TOP openings in the front grille, splitting the center grille divider, as shown in photo 2 below.

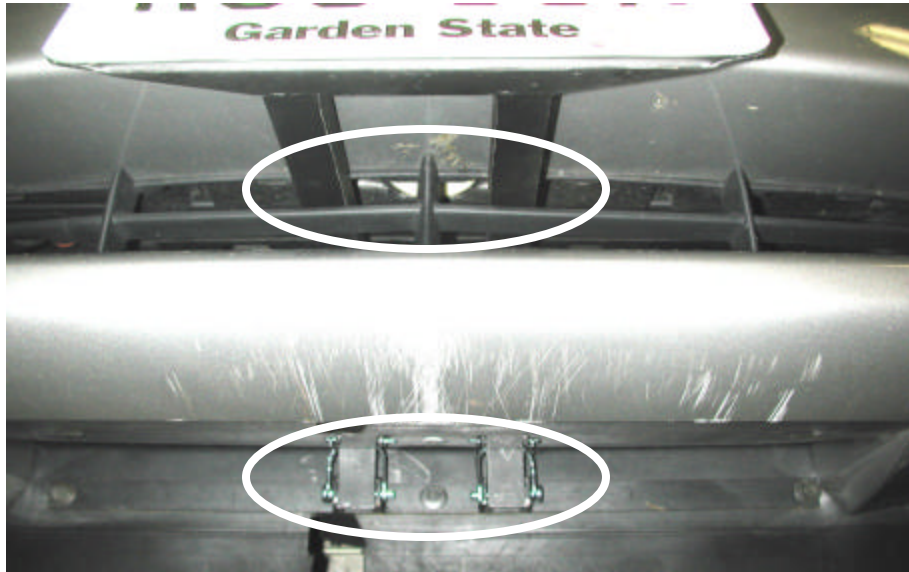

PHOTO 2

- 5 Next secure the License Plate Mount to the plate installed in step 1 by using either the safety pins for quick removal or the supplied 1/4-20 bolts and nylock nuts. See photo 2 above.
- 6 Install your license plate using the provided nylon screws and nuts.
- 7 The installation is now complete.
