

QuickJack Crossbeam Adapter Components:

- **One Crossbeam.** Installs on one end of a QuickJack between the QuickJack Frames.
- **Two Crossbeam Lift Pads.** Slide across the *top* of the Crossbeam, which lets you position them under the Vehicle's Lifting Points. Prevented from slipping off the Crossbeam by Bolt/Square/Nut **at each end.**
- **Two Crossbeam Bases.** Slide across the *bottom* of the Crossbeam. Sit in QuickJack Receiver Trays.
- **Two Round Lift Pads and Base Adapters.** Sit in the Receiver Trays at the opposite end of the QuickJack.
